

Ejemplares de Gaas identificados, algunos muy conocidos y documentados, otros reflejados en documentos modernos mejor identificables, y otros que solo he encontrado en documentación antigua o en referencias de otras zonas geográficas o de otras épocas (Eoceno superior a Mioceno inferior) en estos últimos las identificaciones son aproximadas.

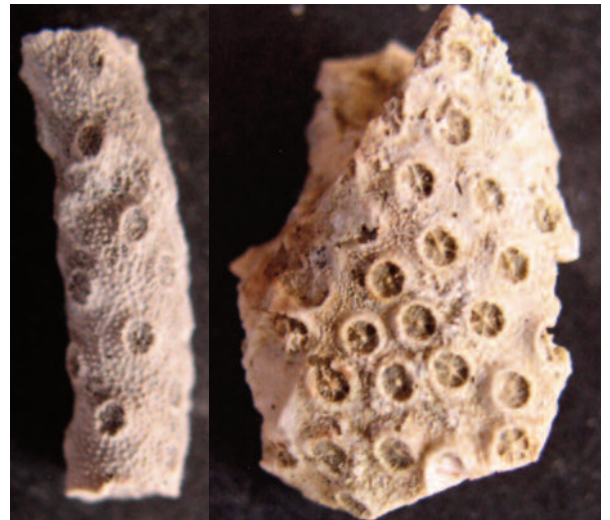

Foraminifera:

Discocyclina sp.

Anthozoa:

Acropora haindingeri, *Stylophora thirsiformis*

Anthozoa:

Bathocyathus matheroni, *Porites matheroni*

Anthozoa:

Porites oligocenica

Porifera:

Entobia (icnogénero)

Clase Mollusca

Escaphopoda:

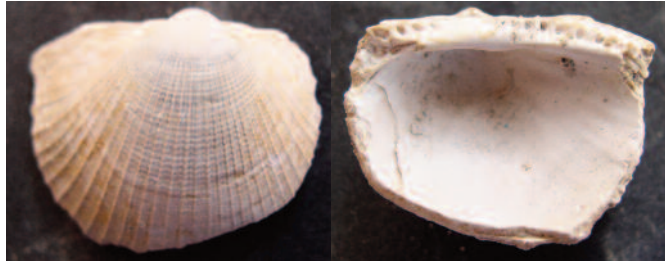

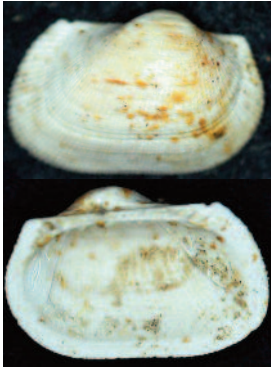

Dentalium, sp

Clase Mollusca

Bivalvia:

Striarca sp., *Glycymeris sp.*

Bivalvia:

Crassostrea sp., .

Bivalvia:

Spondylus sp.

Bivalvia:

Astarte grateloupi, *Venericardia basteroti* .

Bivalvia:

Pseudocyrena sp.

Bivalvia:

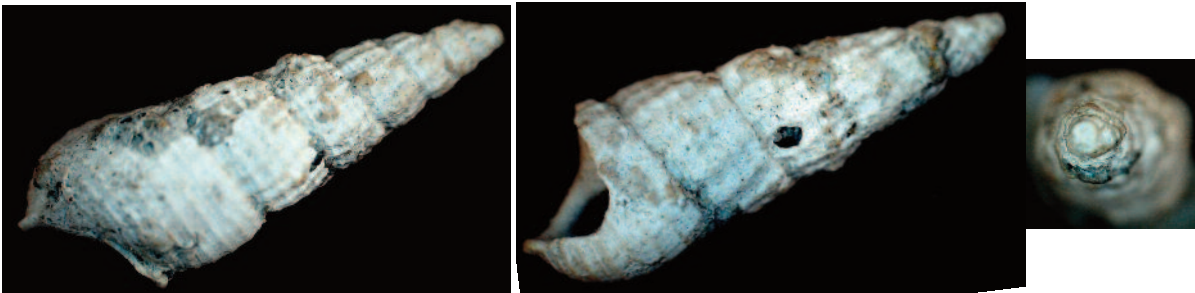

Bivalvo inidentificado.

Clase Mollusca

Gasteropoda:

Bittium sp.

Gasteropoda:

Terebralia gibberosa (Grateloup, 1832)

Gasteropoda:

Cerithium (Gourmya) ocirrhoe. (*Gourmya labrosa* (Grateloup, 1845))

Gasteropoda:

Cerithium sp.

Gasteropoda:

Canarium auricularius

www.fossilshells.nl

Canarium auricularius (200 mm), colno 18949

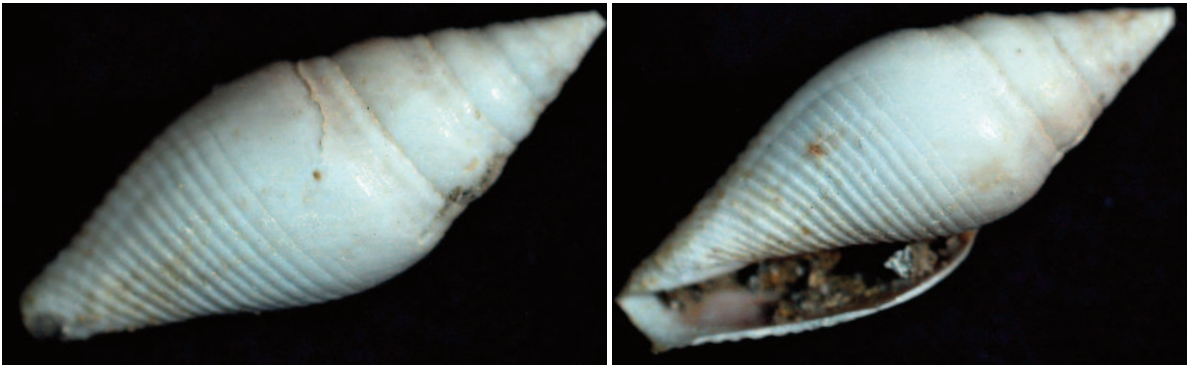

Gasteropoda:
Cassis elegans

Gasteropoda:
Cerithium diaboli

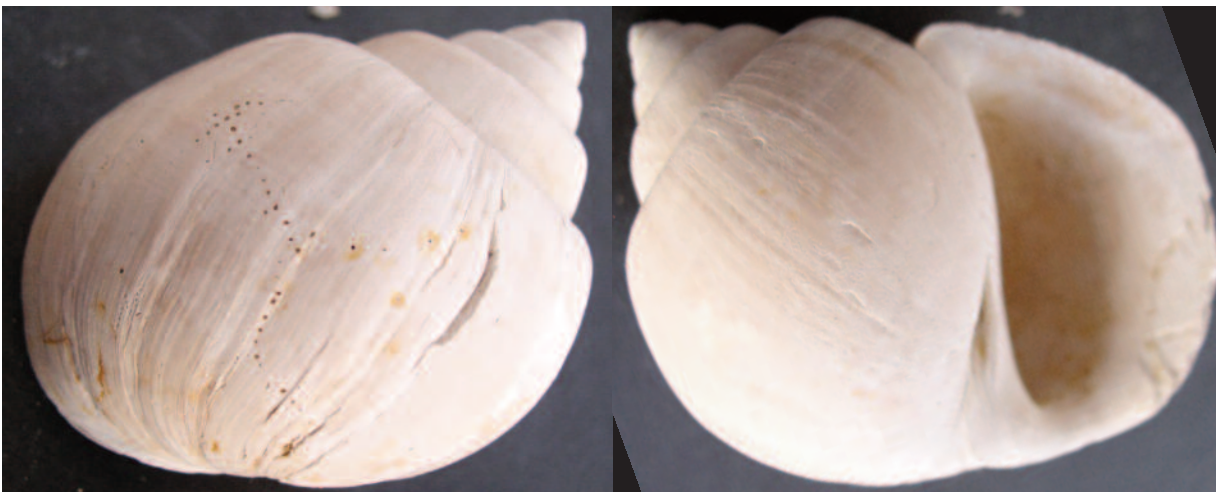

Gasteropoda:
Conorbis sp.

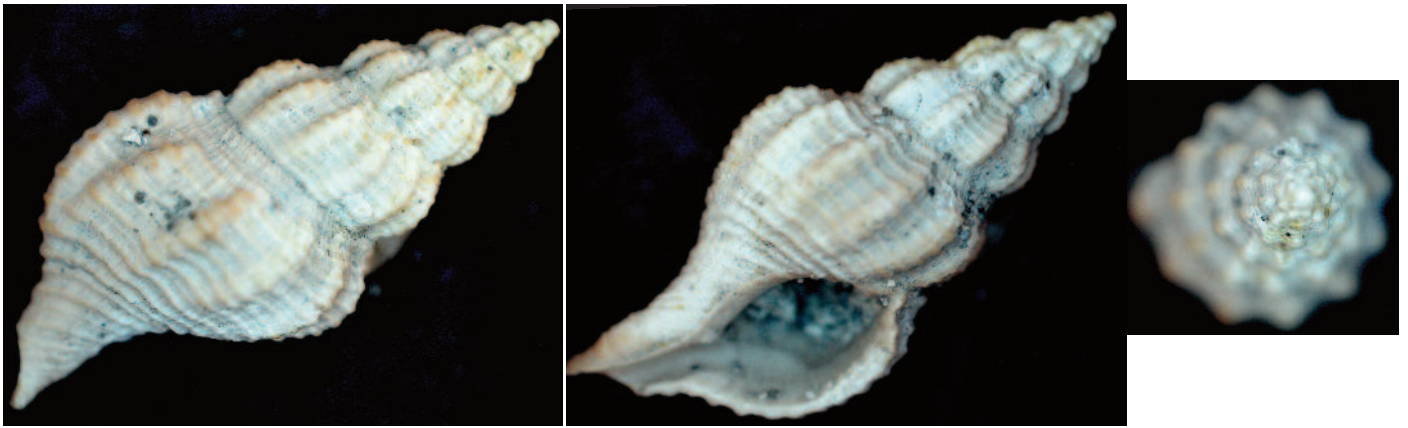

Gasteropoda:
Conus sp.

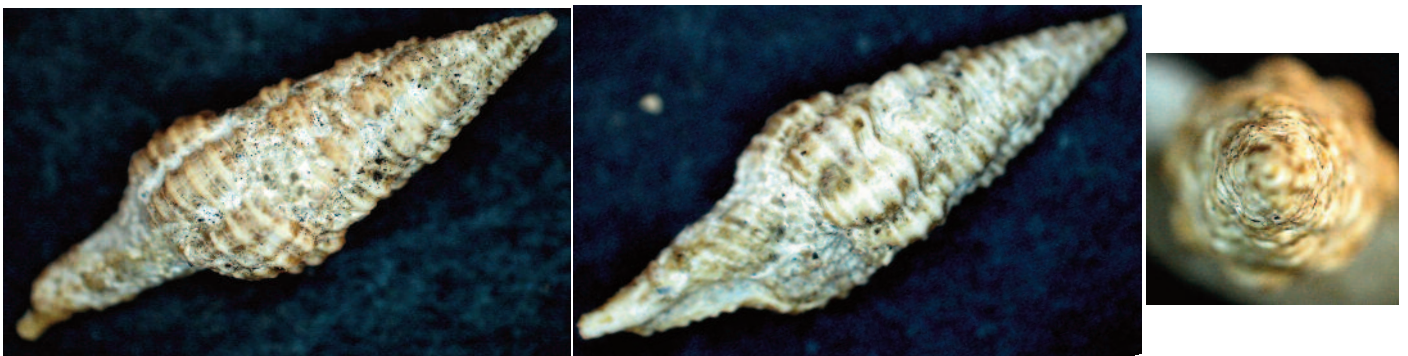

Gasteropoda:
Cromium angustatum

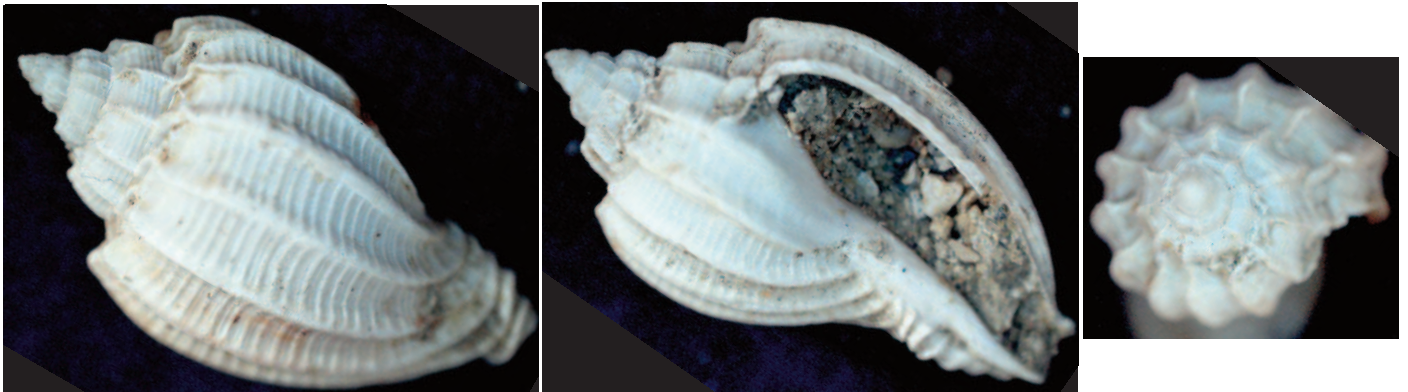

Gasteropoda:
Euthria raulini

Gasteropoda:
Fusinus aciculatus

Gasteropoda:
Harpa mutica

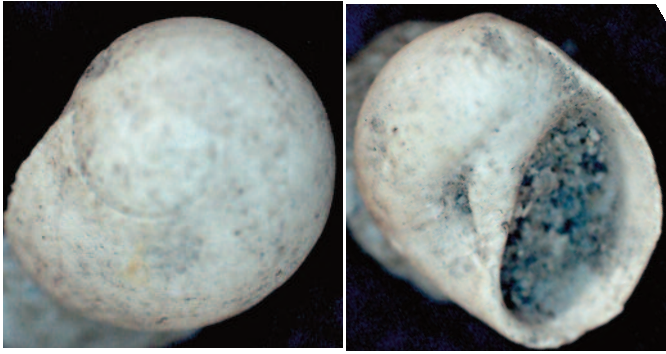

Gasteropoda:
Latirulus rivulensis;

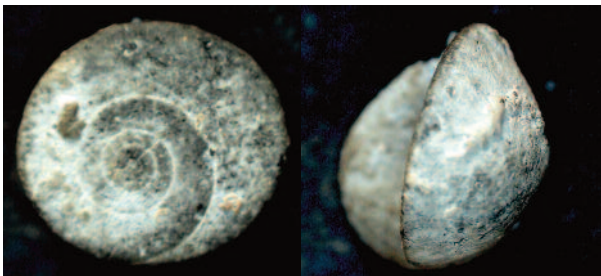

Gasteropoda:

Natica sp. ♂

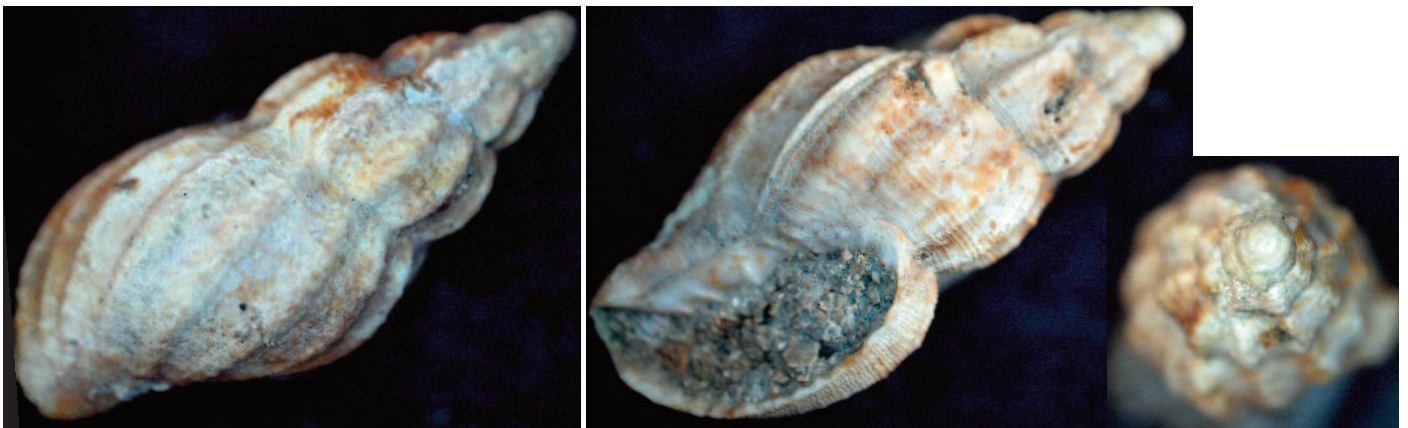

Gasteropoda:

Operculo indeterminado

Gasteropoda:

Polygona sp.

Gasteropoda:

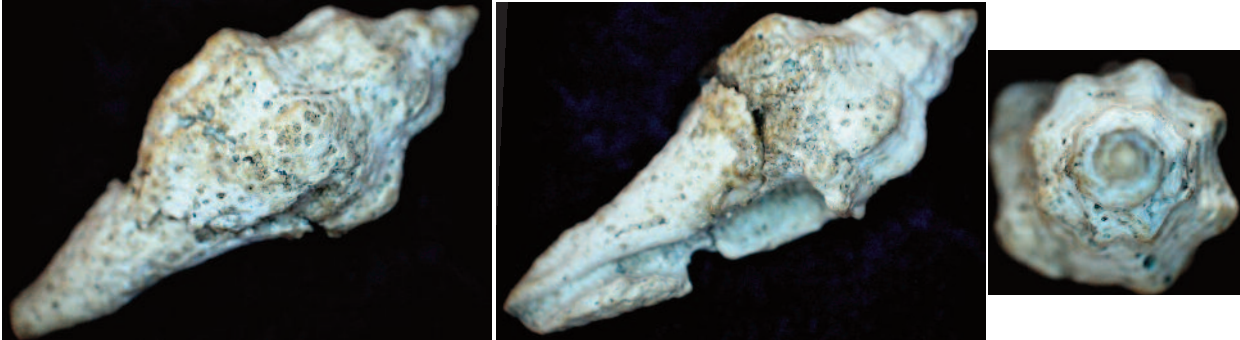

Potamides sp.

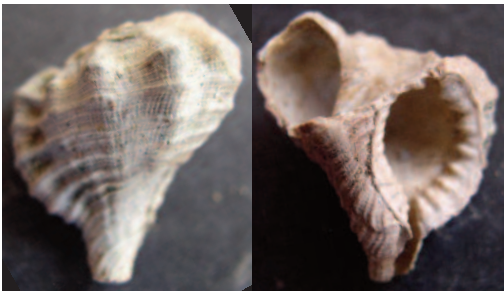

Gasteropoda:
Praerosaria stampinensis

Gasteropoda:
Pugilina sp.

Gasteropoda:
Sassia sp.

Gasteropoda:
Serratocerithium stroppus

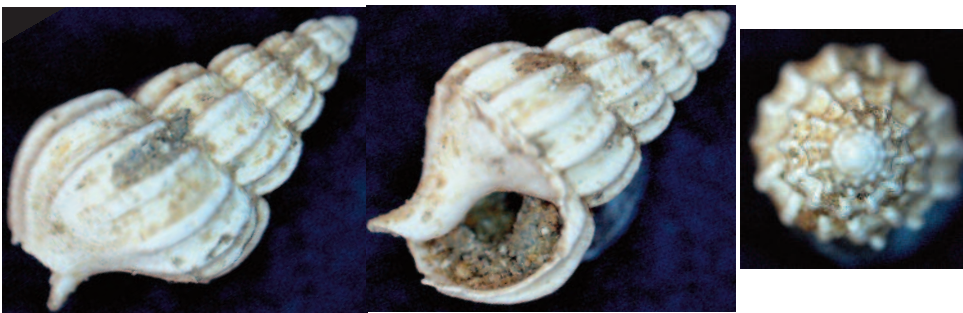

Gasteropoda:
Turritella strangulata, *T. koninckii labrosa*

Gasteropoda:
Tritia sp.

Gasteropoda:
Turbo sp.

Gasteropoda:
Volutocorbis subambigua

Gasteropoda:

Terebralia thiara

Gasteropoda:

Turbo parkinsoni

Gasteropoda:

Potamides (Ptychopotamides) sp.

Vertebrata:

Mamamlia:

Sirenido indeterminado
